

JW MARRIOTT
CANNES

CSR POLICY

We are pleased to welcome you to the JW Marriott Cannes.

In our hotel, respect for the environment is a key concern. We make every effort to minimise the impact of our activities on the environment.

ENERGY SAVINGS

Building envelope

Work undertaken in recent years has included the installation of a new high performance glass facade. The properties of the glass installed allow for the reduction of energy consumption, insulating in winter, cooling in summer and stimulating natural light levels throughout the year.

Energy recovery

The installation of a heat recovery system has made it possible to revalue the heat produced by the hotel's installations. This energy is then reused to heat or preheat domestic hot water and heating water.

Reduced energy consumption

The lighting in the hotel's common areas, which uses energy-intensive incandescent bulbs, is gradually being replaced by LEDs, reducing consumption by over 70%. The hotel is increasing the installation of lighting control systems.

Earth Hour

The hotel participates each year in the *WWF's* international mobilisation on the last weekend of March. The JW Marriott Cannes is therefore plunged into darkness for an hour each year, to participate in energy savings.

ECOLOGY

Waste management

The JW Marriott Cannes is committed to waste management and recycling practices in the various departments of the hotel:

selective sorting in offices and rooms, replacement of care products by refillable wall-mounted dispensers, bamboo or pasta straws for drinks, collection of glasses and ink cartridges for a recycling company, replacement of plastic bottles by water fountains and glass bottles for employees...

Local and national supply

The hotel's restaurants use organic and local products (eggs, Mediterranean fish) whenever possible. 90% of the supply is made in France.

The hotel owns a beehive and produces its honey in the regional nature reserve of the Gorges de Daluis. The honey obtain has the AB 100% organic label, certified by Ecocert. The hives allow to participate in the protection of bees and their ecosystem.

Environmental label

The hotel is currently in the process of obtaining an environmental label in order to validate its commitments in terms of sustainable development policy, raising the awareness of our staff and guests to ecology, energy, water, waste and purchasing management.

World Clean Up Day

Each year, the JW Marriott Cannes organises a day dedicated to cleaning up a beach or a shore in the region, as part of World Clean-up Day. This operation is launched by the association *Let's Do It Foundation* to fight against pollution.

CHARITABLE INITIATIVES

France Cancer Association

By collecting all corks, fake corks (synthetic) and champagne capsules, the JW Marriott Cannes helps raise funds for scientific and medical research against cancer.

Cork and synthetic cork are collected and resold by *France Cancer* to be recycled as acoustic and thermal insulation, expansion joints, textile fibre coverings...

Petit Prince Association

Each year, the JW Marriott Cannes is committed to making the dreams of three children, suffering from cancer, leukaemia and genetic diseases, come true. These children, their families and volunteers are invited to stay at the hotel for one night during the NRJ Music Awards, where they meet their favourite celebrities.

Adrien Association

Thanks to the sale of the Marcel plush at our reception, a fundraising campaign is being conducted to donate the money to the Adrien association, based in the Provence-Alpes-Côte-d'Azur region. Its aim is to improve the daily lives of sick children and their families by offering them a little comfort.

Secours Populaire

Each year, the JW Marriott Cannes participates to the *Raid Interhôtel* in the Provence-Alpes-Côte-d'Azur region. This event, which is committed to *Secours Populaire*, raises funds to support victims of poverty, natural disasters and conflicts.

Odyssea Association

The JW Marriott Cannes teams participate in the annual race organised by the *Odyssea* association, which raises funds for breast cancer research.
